i-Design®

"Il Design dovrebbe portare il massimo del meglio
al maggior numero di persone al minor costo"

"Design should bring the best to the larger
number of people at minimum cost"

centopercentoitaliano

Questo pensiero accompagna in ogni momento lo spirito che ha portato a creare una nuova azienda e sviluppare una precisa ottica di qualità, ricerca e servizio del prodotto.
Un'azienda che si inserisce sul mercato con la massima serietà nella produzione e cura del dettaglio, il tutto coordinato da un gruppo di persone con esperienze pluriennali e specializzate.
Tutti i prodotti con marchio **I-Design®** sono interamente prodotti in Italia.

This thought accompanies in every moment the spirit which carried us to create a new Company and to develope a precise quality-oriented product, research and service.
A Company which imposes itself on the market with maximum seriousness in the processing and care for the details.
Everything is co-ordinated by a team of years-experienced and specialized people.
Every product which is branded **I-Design®** is totally made in Italy.

Tutti i nostri prodotti seguono diverse ed accurate fasi di lavorazione, dallo stampaggio a caldo, le lavorazioni meccaniche, vibrature, smerigliature, lucidature per completarsi con processi di finitura.

Every product we made follows different and accurate processing stages. From the mould production, through the mechanical processings and the polishings up to the final finishing.

La lavorazione
The Processing

Il rivestimento ottenuto utilizzando il trattamento **orostell®** permette di garantire maggiori prestazioni di resistenza rispetto alle normali finiture a cui vengono sottoposti i prodotti. Ideale in ambienti corrosivi, resistente all'ossidazione e alla corrosione di ambienti aggressivi come pioggia acida e salsedine, raggi ultravioletti, resiste all'esposizione della luce solare diretta.

The covering obtained with **orostell®** treatment allows to guarantee better resistance performances compared to standars finishings. Ideal in corrosive environments, oxidation and corrosion proof in aggressive environments such as acid rains, UV rays, it endures to the direct sunlight exposure.
